

Medical LED Film Viewer

4-Section LC-400H/D

Characteristic :

- LED light source, nominal 50,000 hours lifetime
- High Luminance : 4,500 Cd/m²
- Perfect light uniformity, thanks to Germany light panel
- LCD technology have been applied
- Viewing Screen: single bank, 56"×17"
- Each divisional control each section
- Digital system, easy to operate and high reliability
- Aluminum case, light but robust
- European Union CE certification

Digital operate panel

Three Model:

- Un-adjustable
- Digital Dimming
- Digital Dimming & Sensing

Specification:

Model	LC-400H/D
Product size(mm)	1590×495×25
View size(mm)	1420×422
Light source	LED 8 lamps
Temperature	Over 10000K
Power consumption	80W
Power	85-264V 47-63Hz
Weight	15.0kg
Brightness	H: 3500cd/m ² D: 300-4500cd/m ²

Notice

H: unadjustable
D: microcomputer digital induction dimming and divisional control each section as well
